Message from Dr. Maya \* May 2014

Meandering in valleys is part of the human journey but we are destined for the high meadow and the heights that lie beyond. These are difficult times. We are facing some common perils, habits, expectations and value of our current warring culture, threatening our environment and in that the life of the earth as a being and the heart and spirit of all beings. It is becoming clear that no governments and no institutions are meeting the gravity of the global situation, that it cannot be fixed; it must be changed. The change is one of consciousness.

*A Positive  
Path  
for Spiritual  
Living*

*"Be ye transformed by the renewing of your mind!"*

Many of us have experienced the beginning of a change of consciousness, we are drawn to be with others in a field of deepening collective consciousness, a field of possibilities and dreams, caring in ways of peacemaking, community and healing.

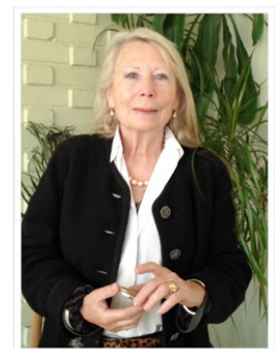

The Hopi have an image of a Sipapu, a corridor between the worlds. Passing thru the Sipapu, one is entirely altered and becomes a being of a new world. I believe we are being asked, by our own soul's discontent and longing, by Spirit and by the beings of a hopeful future, to enter the rigorous process of moving thru the Sipapu, to become beings of a new world.

To facilitate and support this ongoing process in me and you and among us is at the heart of Unity Church of Montreal. Come join us on **Sundays 11am** for inspiring talks, fabulous music and help us create an ever growing field of being a spiritual community, offering ourselves in a conscious willingness for individual and collective transformation.

Then I highly recommend Rev. Victor's **Tuesday 6pm** Healing and Meditation service.

## **May Affirmation**

*I live in the light of GOD. It guides me, directs me and shines through me.*

For more info and topics of **Sunday talks** as well as **Dr. Maya's schedule**, visit us on [www.unityofmontreal.org](http://www.unityofmontreal.org)
